

NEWS FROM DELAWARE'S OFFICE OF ENVIRONMENTAL PROTECTION, 10/24/11

The biweekly E-News Update features current information on the Divisions of Air Quality, Waste and Hazardous Substances & Water public meetings, workshops, hearings, and regulatory documents available for public comment, as well as news updates. For those of you who are receiving the E-News Update for the first time, the subscription is FREE! Please sign up at the following link under the Divisions of Air Quality & Waste and Hazardous Substances: <http://www.dnrec.delaware.gov/Pages/DNRECLists.aspx>. There is no form to fill out; it's done in three clicks!

Suggestions? Additions? Please call Tracy Sargent at (302) 739-9400, or send an email to tracy.sargent@state.de.us

NEWS UPDATES:

NATIONAL PRESCRIPTION TAKE BACK DAY – The Drug Enforcement Administration (DEA) along with DNREC's Solid and Hazardous Waste Management Section and Environmental Crimes Unit has partnered with Nanticoke Health Services to hold a medication take back event on October 29, 2011 from 10:00am – 2:00pm at the Mears Health Campus, 200 Rawlins Drive (formerly Health Services Drive) in Seaford. There will be 26 sites open in Delaware on this day accepting prescription and over the counter medication for disposal. For additional information, please contact Leslie Mairs at (302) 739-9403 or visit: http://www.deadiversion.usdoj.gov/drug_disposal/takeback/index.html

LEAF BURNING PROHIBITED STATEWIDE TO PROTECT PUBLIC HEALTH - With autumn leaves beginning to fall, the Division of Air Quality (DAQ) reminds residents that burning leaves is prohibited statewide. The leaf burning ban, in effect since February 1995, is important to protect people from harmful chemicals that are produced by open burning. Leaf burning produces a considerable amount of airborne particulate matter, carbon monoxide, nitrogen oxides and at least seven carcinogens. Some of these compounds react with sunlight and chemicals in the air to produce ground-level ozone, a respiratory irritant particularly dangerous to children and the elderly. In addition to the leaf burning ban, burning grass, refuse, trash or garbage is also prohibited year-round. Cooking fires and campfires meeting size restrictions are legal year-round, unless prohibited by local, town, or county ordinances; however, only clean, unpainted wood or charcoal is to be used in these fires. Burning of cut or fallen branches, limbs or shrubbery trim from a residence is allowed daily, 8 a.m. – 4 p.m. from October 1 to April 30, except when the State Fire Marshal issues a ban on all outdoor burning. Open burning for agricultural or prescribed purposes and for intentional structure fires for firefighter training requires written notification to DNREC. Delaware residents have several options to help manage leaves and other yard waste.

- Handling it on your own property by [composting](#), including use of a mulching mower.
- Arranging to have someone else collect your yard waste such as a landscaper or waste hauler.
- Taking it yourself to one of many approved drop-off facilities statewide.
- Developing a community-wide solution by creating your town or community's own yard waste site.

For additional information, please contact Tom Postell at (302) 739-9402 for leaf burning question or Debra Nielsen at (302) 739-9403 for yard waste/composting questions or visit:

DNREC ISSUES CEASE AND DESIST ORDER TO INTERNATIONAL PETROLEUMCORP. OF DELAWARE FOR HAZARDOUS WASTE AND AIR QUALITY VIOLATIONS - DNREC Secretary Collin O'Mara has issued a cease and desist order to International Petroleum Corporation of Delaware, Inc. for violations of Delaware's laws and regulations governing hazardous waste management and of the company's permit issued by DNREC's Division of Air

Quality. International Petroleum Corp. (IPC) operates a used oil recycling facility in Wilmington. IPC is required to perform several analyses in an onsite laboratory to ensure that the used oil accepted at the facility is suitable for treatment. IPC generates waste as part of this quality assurance testing and also disposes of the waste generated in the laboratory in its used oil recycling process. However, the laboratory waste does not meet the acceptance and treatment criteria set forth in the Wilmington facility's permit issued by the Division of Air Quality. IPC also operates a program in which parts washer solvent is distributed to customers throughout the region. When the parts washer solvent can no longer be used by its customers, IPC picks up the used solvent and transports it back to its Wilmington facility. The used parts washer solvent is subject to Delaware's regulations governing hazardous waste and is characterized as hazardous waste, and IPC does not have a permit to store the waste. Based on assessments made this year on April 4 and 8, and August 22, a cease and desist order from DNREC has been issued to IPC to immediately cease the operations described above. For additional information, please contact Michael Globetti at (302) 7399902 or visit:

WORKSHOP ON APPLYING FOR EPA BROWNFIELDS GRANTS - For the FY 2012

Brownfields competitive grants proposal cycle, the EPA Mid-Atlantic Region is offering a free seminar on October 25, 2011 from 1:00pm-4:00pm on how to apply for EPA's Brownfields Assessment, Cleanup and Revolving Loan Fund (RLF) Grants. Participation in this workshop is by conference call-in only. 866-299-3188 Conference Code 2158144321 States, communities, and nonprofit organizations in the Mid-Atlantic Region (DE, DC, MD, PA, VA, WV) are eligible to apply. During the session, we will review the proposal guidelines (with special emphasis on the threshold and ranking criteria), the selection process, what's new this year in the guidelines, helpful hints, and tips for preparing your proposal. Training materials, including the PowerPoint presentations that will be used, must be downloaded directly from our website at: <http://www.epa.gov/reg3hwmd/bf-lr/bf-grants.html>. The material will be available on our website within the next week. But please keep in mind that you will need to download the two PowerPoint presentations titled "How to Apply for EPA's Brownfields Grants FY12" and "Tips on Preparing FY12 Brownfields Cleanup Grant Proposals" in order to follow along with the training. FY 2012 Brownfields Assessment, Revolving Loan Fund and Cleanup Grant Guidelines – Request for Proposals. These grants may be used to address sites contaminated by petroleum and hazardous substances, pollutants, or contaminants (including hazardous substances co-mingled with petroleum). Opportunities for funding are as follows: Brownfields Assessment Grants (each funded up to \$200,000 over three years; coalitions are funded up to \$1,000,000 over three years), Brownfields Revolving Loan Fund (RLF) Grants (each funded up to \$1,000,000 over five years) and Brownfields Cleanup Grants (each funded up to \$200,000 over three years). Prior to the seminar, you should review the Proposal Guidelines for the grant type for which you are applying. The Proposal Guidelines can be downloaded from the following links: [Final FY2012 Brownfields Assessment Grant Guidelines \(PDF\)](#) (57 pp, 340K), [Final FY2012 Brownfields Revolving Loan Fund Grant Guidelines \(PDF\)](#) (51 pp, 303K), [Final FY2012 Brownfields Cleanup Grant Guidelines \(PDF\)](#) (59 pp, 341K), [Frequently Asked Questions \(PDF\)](#) (47 pp, 226K) or [Assessment Proposal Preparation Checklist \(PDF\)](#) (8 pp, 289K). And finally, did you know that local government entities and nonprofits can receive free technical assistance and guidance from the New Jersey Institute of Technology (NJIT) Technical Assistance to Brownfield Communities (TAB) Program? TAB is a technical assistance program, funded through a grant provided by EPA, intended to serve as an independent resource to communities and nonprofits pursuing the cleanup and reclamation of brownfields. NJIT can provide assistance with grant proposals including review and comment. This service is provided on a first come, first serve basis. If you have any questions on how to apply or wish to discuss if your project is eligible, please contact Tom Stolle, EPA Region 3 Brownfields Coordinator, at 215-814-3129 or stolle.tom@epa.gov.

UPCOMING AIR, WASTE & WATER-RELATED HEARINGS, MEETINGS & EVENTS:

WATER SUPPLY COORDINATING COUNCIL MEETING – The Water Supply Coordinating Council will hold a meeting on October 26, 2011 from 1:00pm-3:30pm at the Kent County Administration Bldg., Bay Road Dover – 19901. For additional information, please contact Dawna Nickerson at (302) 739- 9950 or visit:

<http://calendar.delaware.gov/eGov/Calendar.nsf/Meetings/0B14F772329669628525792C00607062?open>

RECYCLING PUBLIC ADVISORY COUNCIL – The Recycling Public Advisory Council (RPAC) will hold its monthly meeting to discuss recycling matters in the State of Delaware and implementation of the Universal Recycling Law on October 26, 2011 from 1:30pm – 3:30pm at the Brandywine Hundred Library, 1300 Foulk Road, Wilmington – 19803. For additional information, please contact Bill Miller at (302) 739-9403 or visit:
<http://calendar.delaware.gov/eGov/Calendar.nsf/Meetings/6CD8F69892CDA1358525792C0072DC82?open>

ON-SITE SYSTEMS ADVISORY BOARD – The On-Site Systems Advisory Board will hold their monthly meeting on November 2, 2011 from 9:15am – 11:00am at the DNREC Richardson and Robbins Building; DWHS Conf Room B228, 89 Kings Highway, Dover – 19901. For additional information, please contact Katharyn Wright at (302) 739-9948 or visit:
<http://calendar.delaware.gov/eGov/Calendar.nsf/Meetings/7B021DF746C4BA318525793000633000?open>

NOVEMBER LEPC MEETINGS – The Local Emergency Planning Committee will hold the following meetings:

November 08 – Kent County LEPC - will hold their bi-monthly meeting from 10am-12pm at 911 Safety Blvd., Dover

November 10 – Sussex County LEPC - will hold their bi-monthly meeting from 10am-12pm at Sussex EOC in Georgetown.

November 11 – Wilmington LEPC – will hold their bi-monthly meeting from 10am – 12pm at 22 S. Heald Street in Wilmington.

November 14 – New Castle County LEPC – will hold their bi-monthly meeting from 2:30pm-4:30pm at DuPont Stine - Haskell in Newark

For more information, please visit:

<http://www.dnrec.delaware.gov/SERC/Pages/Calendar.aspx>

DOCUMENTS AVAILABLE FOR PUBLIC COMMENT OR APPEAL:

BROWNFIELDS DEVELOPMENT PROGRAM – The Division's Brownfields Development Program encourages the cleanup and redevelopment of vacant, abandoned or underutilized properties which may be contaminated. A party seeking to develop such a property negotiates with the Division's Site Investigation and Restoration Section (SIRS) for a Brownfields Development Agreement (BDA) or a Brownfields Voluntary Cleanup Program (VCP) Agreement to perform an investigation and, if necessary, a remedial action or remedy, for the purpose of addressing the risks posed by past releases of hazardous substances at these sites. For site-specific information on the following sites, please see SIRS's superfund site files database at:
<http://docs.dnrec.delaware.gov/sirbsitefiles.cfm>.

FINAL PLAN OF REMEDIAL ACTION FOR THE FORMER KIRKWOOD HIGHWAY GULF STATION SITE, OPERABLE UNIT 1

DE-1495 - The Site Investigation and Restoration Section (SIRS) has adopted a plan to clean up the Former Kirkwood Highway Gulf Station Operable Unit-1 (OU-1) located in Wilmington. The Former Kirkwood Highway Gulf Station Site is the location of a former Gulf/Cumberland Farms gasoline station with an auto repair garage and a food convenience store. OU-1 consists of the site soils and OU-2 consists of the site's groundwater. A separate Final Plan will be developed for OU-2. The Site is located at the northwest corner of the intersection of Limestone Road and Kirkwood Highway. The Site is a certified Brownfield and is being developed for use as a commercial bank. The Final Plan for OU-1 requires the removal of an underground 1,000-gallon heating oil storage tank, installation of a vapor barrier system beneath the proposed new building slab, capping of the site with asphalt and clean soil for landscaping areas, and restricting groundwater until the petroleum related constituents have been satisfactorily remediated. Long term activities include maintenance of the vapor barrier system and its components, groundwater monitoring and cap maintenance. The public may appeal this Final Plan until October 29, 2011. For additional information, please contact Kristen Thornton or Robert Newsome at (302) 395-2600 or visit:

<http://www.dnrec.delaware.gov/Lists/Public%20Notices/DispForm.aspx?ID=1256&Source=http%3A%2F%2Fwww%2Ednrec%2Edelaware%2Egov%2FLists%2FPublic%2520Notices%2FAIItems%2Easpx&ContentTypeld=0x010034FD6D348B0CF04392485E93FC15AB3A>

PROPOSED PLAN OF REMEDIAL ACTION FOR THE 701 A STREET SITE (DE-1376)

- The Site Investigation and Restoration Section (SIRS) invites public comment on a proposal to address the 701 A Street Site located in Wilmington. The Site is currently owned by the Delaware Humane Association (DHA). The proposed redevelopment plan for the Site includes demolishing the current buildings located on the Site and building a new 11,000 square foot facility to house DHA's animal shelter and administrative buildings with the surrounding land to be developed into dog runs, open space, and a parking lot. The Proposed Plan for the Site requires: Capping the site with at least one foot of DNREC Approved clean fill or hardscaping (e.g. concrete, asphalt) and restricting access to the site sediment with a secure fence. Groundwater usage is restricted due to the Site's location within the City of Wilmington Groundwater Management Zone. The comment period ends on November 7, 2011. For additional information, please contact Wendy March or Robert Newsome at (302) 395-2600 or visit:

<http://www.dnrec.delaware.gov/Lists/Public%20Notices/DispForm.aspx?ID=1260&Source=http%3A%2F%2Fwww%2Ednrec%2Edelaware%2Egov%2FLists%2FPublic%2520Notices%2FAIItems%2Easpx&ContentTypeld=0x010034FD6D348B0CF04392485E93FC15AB3A>

PROPOSED PLAN OF REMEDIAL ACTION FOR THE KALMAR NYCKEL/CHALLENGE SITE (OPERABLE UNIT -2) (DE-0399)

- The Site Investigation and Restoration Section (SIRS) invites public comment on a proposal to clean up the Kalmar Nyckel/Challenge Program Site (OU-2) located at 1112 & 1124 East 7th Street. The entire Kalmar Nyckel/Challenge Program Site is owned by the City of Wilmington and is leased to the Kalmar Nyckel Foundation. The OU-2 portion is ~ 2.71 acres. The Foundation currently utilizes it as a shipyard, museum and office space. The plan is to continue to use it as such. The Site soil is contaminated with substances related to historic contaminated fill material and the historic use of the Site as a railroad car manufacturer. Groundwater usage is restricted due to the Site's location within the City of Wilmington's Groundwater Management Zone (GMZ). This Proposed Plan addresses only OU-2. The proposed cleanup for OU-2 includes the installation of clean utility corridors, and capping of the remainder of surface soils with either hardscaping (e.g. concrete, asphalt) or a minimum of 1 foot of DNREC-approved clean fill material with the goal of making the site suitable for recreational use. The comment period ends on November 07, 2011. For additional information, please contact Lindsay Hall or Robert Newsome at (302) 395-2600 or visit:

<http://www.dnrec.delaware.gov/Lists/Public%20Notices/DispForm.aspx?ID=1259&Source=http%3A%2F%2Fwww%2Ednrec%2Edelaware%2Egov%2FLists%2FPublic%2520Notices%2FAIItems%2Easpx&ContentTypeld=0x010034FD6D348B0CF04392485E93FC15AB3A>

FINAL PLAN OF REMEDIAL ACTION FOR THE FORMER JAMES JULIAN SITE DE-1497

- The Site Investigation and Restoration Section (SIRS) has adopted a plan to clean up the Former James Julian Site located in Wilmington. The Former James Julian Site is the location of a former highway and street paving company. The Site is located at 209 and 405 S. DuPont Road in Wilmington and is a certified Brownfield Site. The Site is currently used as the offices and facilities of Paoli Services, Inc. who recently moved into the property. The Final Plan requires placing an environmental covenant on the property restricting the use of the site to non-residential and prohibiting intrusive activity without prior written notice to DNREC in the area of the former underground storage tanks (USTs). A DNREC approved Contaminated Materials Management Plan will be required for any soil disturbing activities in the area of the former USTs. Additionally a DNREC approved Long Term Stewardship Plan

will be developed to ensure that the cleanup actions completed at the Site will remain protective of human health and the environment. The public may appeal this Final Plan until November 12, 2011. For additional information, please contact Kristen Thornton or Robert Newsome at (302) 395-2600 or visit: <http://www.dnrec.delaware.gov/Lists/Public%20Notices/DispForm.aspx?ID=1263&Source=http%3A%2F%2Fwww%2Ednrec%2Edelaware%2Egov%2FLists%2FPublic%2520Notices%2FAllItems%2Easpx&ContentTypeId=0x010034FD6D348B0CF04392485E93FC15AB3A>

NOTIFICATION OF NEGOTIATIONS FOR A BROWNFIELDS DEVELOPMENT AGREEMENT FOR THE FORMER DIAMOND STATE RECYCLING CENTER SITE (DE-0280) – The Site Investigation and Restoration Section (SIRS) is negotiating a Brownfields Development Agreement (BDA) with Simsmetal East LLC regarding the Former Diamond State Recycling Center Site (Site) located at 1600 Bowers Street in Wilmington. Known by New Castle County as tax parcel number 26-037.00-008, the approximately 8 acre Site may have had a release of hazardous substances as a result of past use including use as a salvage yard and permitted or non-permitted landfill. For additional information, please contact Wilmer Reyes or Robert Newsome at (302) 395-2600 or visit: <http://www.dnrec.delaware.gov/Lists/Public%20Notices/DispForm.aspx?ID=1261&Source=http%3A%2F%2Fwww%2Ednrec%2Edelaware%2Egov%2FLists%2FPublic%2520Notices%2FAllItems%2Easpx&ContentTypeId=0x010034FD6D348B0CF04392485E93FC15AB3A>

AIR QUALITY PERMITTING PROGRAM – Notice has been given that the facilities listed below have submitted applications for air quality management permits. The applications, the “draft/proposed” permits, all materials that the applicant has submitted (other than those granted confidential treatment under DNREC rules), and a copy of summary of other materials, if any, considered in preparing the “draft/proposed” permit may be inspected at the offices of the Division of Air Quality, 655 S. Bay Road, Dover and 715 Grantham Lane, New Castle. To submit comments, for additional information or for an appointment to inspect the application, please contact Joanna Austin at the Dover Office at (302) 739-9402.

FEDERALLY ENFORCEABLE 7 DE ADMIN. CODE 1102 APPLICATIONS -
Notice is hereby given that the following have filed an application:

NRG Energy Center Dover LLC having a facility at 1280 West North Street, Dover has requested a federally enforceable 7 DE Admin. Code 1102 construction permit for conversion of one of their existing combustion turbines from simple cycle to combined cycle operation through installation of a heat recovery steam generator and duct burner. The project is subject to the requirements for New Source Review and includes a best available control technology determination for carbon dioxide equivalents (CO₂e). The permitted emissions from the generating unit will be 24.33 ton per year (tpy) of nitrogen oxides, 46.3 tpy of carbon monoxide, 2.1 tpy of sulfur dioxide, 37.8 tpy of particulate matter, 15.5 tpy of hydrocarbons, 15.5 tpy of hazardous air pollutants, 22.5 tpy of ammonia, 0.5 tpy of sulfuric acid mist and 1,085 lb CO₂e/MWh. Permit: APC-2000/0256 & 2011/0154. Upon completion of construction, the Department will incorporate the operating conditions and limits of the 7 DE Admin. Code 1102 Construction permit into the facility's existing Title V permit AQM-001/00127 via an Administrative Amendment. A public hearing on the above application will NOT be held unless the Secretary of DNREC receives a request for a hearing by October 25, 2011. For additional information, please visit: <http://www.dnrec.delaware.gov/Lists/Public%20Notices/DispForm.aspx?ID=1245&Source=http%3A%2F%2Fwww%2Ednrec%2Edelaware%2Egov%2FLists%2FPublic%2520Notices%2FAllItems%2Easpx&ContentTypeId=0x010034FD6D348B0CF04392485E93FC15AB3A>

Mountaire Farms, Inc. having a facility at Hoosier & Railroad Streets, Selbyville has requested a federally enforceable 7 DE Admin. Code 1102 construction permit for a 300 kW portable emergency generator. The engine used in this generator set complies with U.S. EPA regulations under the provisions of 40 CFR 89, Non-Road Tier 3 emissions limits. Upon completion of construction, the Department will incorporate the operating conditions and limits of the 7 DE Admin. Code 1102 Construction permit (APC-2012/0012) into the facility's existing Title V permit AQM-005/00073 (Renewal 2) via an Administrative Amendment. A public hearing on the above application will NOT be held unless the Secretary of DNREC receives a request for a hearing by November 1, 2011. For additional information, please visit:
<http://www.dnrec.delaware.gov/Lists/Public%20Notices/DispForm.aspx?ID=1254&Source=http%3A%2F%2Fwww%2Ednrec%2Edelaware%2Egov%2FLists%2FPublic%2520Notices%2FAIItems%2Easpx&ContentTypeId=0x010034FD6D348B0CF04392485E93FC15AB3A>

TITLE V PERMIT RENEWAL APPLICATIONS - Notice is hereby given that Perdue Farms Incorporated having a facility at 20621 Savannah Road, Georgetown has submitted a request for permit renewal pursuant to 7 DE Admin. Code 1130, Section 7 for operating permit: AQM-005/00075 (Renewal 2) Based on the data and certifications contained in the application, the Division of Air Quality concludes that the applicant meets all applicable requirements promulgated by the Environmental Protection Agency (EPA) and the Department of Natural Resources and Environmental Control (DNREC). Therefore a "draft/proposed" permit renewal has been prepared. This "draft/proposed" permit renewal added new applicable requirements for the two (2) oil fired boilers, and includes the newest permit format and regulatory language. A public hearing concerning the permitting action will not be held unless the Secretary of the Department of Natural Resources and Environmental Control receives a request by October 25, 2011. For additional information, please visit:
<http://www.dnrec.delaware.gov/Lists/Public%20Notices/DispForm.aspx?ID=1246&Source=http%3A%2F%2Fwww%2Ednrec%2Edelaware%2Egov%2FLists%2FPublic%2520Notices%2FAIItems%2Easpx&ContentTypeId=0x010034FD6D348B0CF04392485E93FC15AB3A>

WATER PERMITTING PROGRAM - The Division of Water monitors, manages and protects Delaware's ground and surface waters, tidal wetlands and underwater lands. The Division is a link to the Delaware Estuary Program, Inland Bays Estuary Program and the Delaware River Basin Commission, and provides centralized computer and geographic information system services. The Division also provides public education and outreach programs. Applications below are available for inspection or copies may be obtained by contacting: Gayle Calder, Wetlands and Subaqueous Lands Section, 89 Kings Highway, Dover – 19901, or by calling (302) 739-9943. A public hearing on the applications below will NOT be held unless the Secretary of DNREC determines that a hearing is in the public interest or if a written meritorious objection to the application is received within 20 days of the initial notice.

SUBAQUEOUS LANDS PERMIT APPLICATIONS – The following have submitted an application:

Town of Middletown – (Tax Parcel No. 2303600103) To construct 2 sanitary sewer crossings (62 ft. and a 161 ft. long) by directional bore in 2 tributaries to the Appoquinimink River, located in the southern section of the Willow Grove Mill subdivision in the Town of Middletown.

Bayshore Inc (TM 134-8.00-94.01) To maintenance dredge to a depth of 4 feet below mean low water 1,480 cubic yards of material from the marina access channel in White Creek near Brandt Road; dewater the material on adjacent uplands; and dispose of the material at an existing disposal site on the south side of Yacht Basin Road in Ocean View. A public hearing on the above applications will NOT be held unless the Secretary of DNREC determines that a hearing is in the public interest or

if a written meritorious objection to the application is received by November 1, 2011. For additional information, please visit:
<http://www.dnrec.delaware.gov/Lists/Public%20Notices/DispForm.aspx?ID=1258&Source=http%3A%2F%2Fwww%2Ednrec%2Edelaware%2Egov%2FLists%2FPublic%2520Notices%2FAIItems%2Easpx&ContentTypeId=0x010034FD6D348B0CF04392485E93FC15AB3A>

SUBAQUEOUS LANDS PERMIT AND WATER QUALITY CERTIFICATION APPLICATIONS – The following have submitted an application:

Overfalls Maritime Museum – (Dredge Site Tax Parcel No. 3-35-8.07-310.05, Disposal site Tax Parcel No. 3-35-4.19-67) – To dredge 2,500 cubic yards of material to a depth of 10 feet below mean low water, from the Lightship Overfalls berth and the Lewes and Rehoboth Canal at 219 Pilottown Road, and to dispose of the material at a confined disposal facility on the north side of the Lewes and Rehoboth Canal, in Lewes. A public hearing on the above applications will NOT be held unless the Secretary of DNREC determines that a hearing is in the public interest or if a written meritorious objection to the application is received by November 1, 2011. For additional information, please visit:
<http://www.dnrec.delaware.gov/Lists/Public%20Notices/DispForm.aspx?ID=1258&Source=http%3A%2F%2Fwww%2Ednrec%2Edelaware%2Egov%2FLists%2FPublic%2520Notices%2FAIItems%2Easpx&ContentTypeId=0x010034FD6D348B0CF04392485E93FC15AB3A>

EMPLOYEE UPDATES:

Effective October 7, 2011, Jeff Bendlewski resigned as an Engineer for Air Planning Section to go to a private business.
